PROFILE

Technical leader with over 5 years of experience in software development, specializing in Business Process Management (BPM) solutions. Proficient in backend development using Spring Boot and frontend development with Angular. Strong background in microservices architecture and DevSecOps practices. Passionate about optimizing system performance and ensuring high-quality deliverables.

WORK EXPERIENCE

Technical Lead

Jan 2022 - Present

ABC Tech Solutions, Ho Chi Minh City

- Lead a team of software engineers in developing BPM solutions using Spring Boot and Angular, ensuring project timelines and quality standards are met.
- Collaborated with Product Owners and stakeholders to clarify requirements and design technical solutions, resulting in a 30% increase in project efficiency.
- Conducted code reviews, implemented design patterns, and performed refactoring to enhance system performance and maintainability.
- Managed project plans, assigned tasks, and monitored progress, successfully delivering multiple projects on time.
- Utilized Docker for containerization, ensuring consistent development and deployment environments.

Software Engineer

Jun 2019 - Dec 2021

XYZ Corporation, Ho Chi Minh City

- Developed and maintained microservices for a BPM platform, focusing on backend services with Spring Boot and frontend applications using Angular.
- Implemented database solutions using MongoDB and Kafka, optimizing data retrieval and processing times.
- Worked on integrating various messaging protocols, including JMS and Kafka, to facilitate communication between services.
- Participated in the implementation of observability tools such as ELK and Prometheus to monitor system health and performance.

Junior Developer

Jul 2018 - May 2019

Tech Innovations, Ho Chi Minh City

- Assisted in the development of internal tools and applications, primarily using Java and Spring framework.
- Gained experience in RESTful API development and database management with MySQL.
- Collaborated with senior developers to learn best practices in software design and development.

EDUCATION

B.Sc, Information Technology

2014 - 2018

University of Science, Ho Chi Minh City

- GPA 8.0/10, Good classification. Thesis focused on optimizing BPM workflows in microservices architecture.

TECHNICAL SKILLS

- Languages:** Java, TypeScript
- Frameworks:** Spring Boot, Angular
- Databases:** MongoDB, Kafka
- Microservices:** API Gateway, Backend for Frontend (BFF)
- Containerization:** Docker
- DevSecOps Tools:** GitLab, Jenkins, SonarQube, Nexus, JIRA, Confluence
- Observability:** ELK, Prometheus, Grafana
- Testing:** Unit/Integration Testing (JUnit)

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA)
- Spring Professional Certification

ADDITIONAL

- Strong analytical and problem-solving skills.
- Excellent communication and team collaboration abilities.
