PROFILE

Frontend developer with over three years of experience specializing in building high-quality web applications using ReactJS and modern JavaScript frameworks. I have a strong focus on responsive design and performance optimization, and I enjoy collaborating with UI/UX designers to create seamless user experiences.

WORK EXPERIENCE

React JS Developer

Jan 2021 - Present

Tech Solutions Co., Ho Chi Minh City

- Developed and maintained web applications using ReactJS, ensuring high performance and responsiveness across various devices.
- Collaborated with UI/UX designers to translate designs and wireframes into high-quality code, enhancing user engagement.
- Implemented state management using Redux, improving application scalability and maintainability.
- Conducted code reviews and provided constructive feedback to team members, fostering a culture of continuous improvement.
- Resolved application issues and debugged performance bottlenecks, ensuring optimal application functionality.

Frontend Developer

Jun 2019 - Dec 2020

Innovative Tech, Ho Chi Minh City

- Built dynamic web applications using JavaScript (ES6+) and React, focusing on user-friendly interfaces and efficient performance.
- Worked with RESTful APIs to integrate backend services, ensuring smooth data flow and user interactions.
- Optimized web applications for maximum speed and scalability, resulting in a 30% increase in user satisfaction.
- Participated in agile development processes, contributing to sprint planning and retrospectives.

EDUCATION

B.Sc, Computer Science

2015 - 2019

University of Danang - University of Science and Technology

- GPA 8.0/10, Good classification. Thesis on optimizing web application performance.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), HTML, CSS
- Frameworks:** ReactJS, Redux
- Tools:** Git, Webpack, npm
- APIs:** RESTful APIs
- Design:** Responsive Design Principles
