PROFILE

Embedded software engineer with over four years of experience in developing and maintaining embedded systems and Android device drivers. Proficient in analyzing and debugging system issues using various Android and Linux logs. Passionate about automation and continuous improvement in development and testing processes.

WORK EXPERIENCE

Embedded Software Engineer

Jan 2021 - Present

ABC Technologies, Ho Chi Minh City

- Developed and maintained embedded software for Android devices, focusing on driver development and system optimization.
- Analyzed and debugged system issues using logcat, kernel logs, and UART, leading to a 30% reduction in issue resolution time.
- Wrote and executed automation scripts using Shell and Batch scripting to streamline testing processes.
- Collaborated with R&D teams to support debugging, stress testing, and performance verification of new features.
- Contributed to continuous improvement initiatives in development and testing workflows.

Junior Embedded Developer

Jun 2019 - Dec 2020

XYZ Solutions, Ho Chi Minh City

- Assisted in the development of embedded applications for consumer electronics, primarily using C/C++.
- Gained hands-on experience with Linux systems and common commands, enhancing system performance and reliability.
- Supported production line testing and performed initial issue analysis, improving product quality before release.
- Participated in team meetings to discuss project progress and share insights on system improvements.

EDUCATION

B.Sc, Computer Engineering

2015 - 2019

Ho Chi Minh City University of Technology (HCMUT)

- GPA 8.0/10, Good classification. Thesis focused on real-time operating systems and their applications in embedded systems.

TECHNICAL SKILLS

- Programming Languages: C/C++
- Operating Systems: Linux, Real-Time Operating Systems (RTOS)
- Embedded System Architecture
- Hardware Knowledge
- Automation Scripting: Shell, Batch

CERTIFICATIONS

- Certified Embedded Systems Engineer | Embedded Systems Institute | 2020
- Linux Professional Institute Certification (LPIC-1) | Linux Professional Institute | 2021
