PROFILE

Backend developer with over four years of experience in designing and maintaining scalable applications. Proficient in Python and Django, with a strong focus on developing RESTful APIs to support web and mobile applications. I excel in collaborating with cross-functional teams to deliver high-quality features and actively participate in code reviews to enhance team performance.

WORK EXPERIENCE

Backend Developer

Jan 2022 - Present

Tech Solutions Co., Ho Chi Minh City

- Developed and maintained backend systems using Python and Django, focusing on performance and scalability.
- Designed and implemented RESTful APIs to facilitate communication between frontend applications and backend services.
- Collaborated with UX/UI designers and QA teams to ensure seamless integration and high-quality deliverables.
- Utilized Docker for containerization, streamlining the deployment process and enhancing application scalability.
- Conducted code reviews and provided constructive feedback to team members, fostering a culture of continuous improvement.

Software Engineer

Jun 2019 - Dec 2021

Innovative Tech, Ho Chi Minh City

- Worked on backend development using Python and Django, contributing to various projects including e-commerce and content management systems.
- Implemented database solutions using MySQL, ensuring efficient data management and retrieval.
- Developed WebSocket services for real-time communication features, enhancing user engagement.
- Participated in the design and implementation of microservices architecture, improving system modularity and maintainability.

Intern

Jan 2019 - May 2019

Future Tech, Ho Chi Minh City

- Assisted in the development of internal tools using Python, focusing on REST API integration and data processing.
- Gained hands-on experience with Docker for application deployment and testing.

EDUCATION

B.Sc, Computer Science

2015 - 2019

University of Science, Ho Chi Minh City

- GPA 8.0/10, Good classification. Thesis on optimizing API performance in web applications.

TECHNICAL SKILLS

- Programming Languages: Python
- Frameworks: Django
- Database Management: MySQL
- Containerization: Docker
- API Development: RESTful APIs
- Real-time Communication: WebSockets
- Version Control: Git

CERTIFICATIONS

- Python for Data Science and Machine Learning Bootcamp | Udemy | 2021
- Docker Mastery: with Kubernetes +Swarm from a Docker Captain | Udemy | 2022
