PROFILE

Frontend developer with over six years of experience, specializing in building responsive web applications using ReactJS and NextJS. I am passionate about creating user-friendly interfaces and collaborating with cross-functional teams to deliver high-quality products. I thrive in dynamic environments and am committed to continuous learning and improvement.

WORK EXPERIENCE

Frontend Developer

Jan 2020 - Present

Tech Solutions Co., Ho Chi Minh City

- Developed and maintained web applications using ReactJS and NextJS, ensuring optimal performance and responsiveness across various devices and browsers.
- Collaborated with backend developers to integrate RESTful APIs, enhancing the functionality of web applications.
- Implemented best practices in coding and design, resulting in a 30% increase in application load speed.
- Conducted code reviews and provided mentorship to junior developers, fostering a culture of knowledge sharing and continuous improvement.
- Created comprehensive technical documentation for development processes and application features.

Web Developer

Jun 2017 - Dec 2019

Digital Innovations, Ho Chi Minh City

- Designed and developed user interfaces for various web applications using HTML, CSS, and JavaScript, focusing on user experience and accessibility.
- Worked closely with UX designers to translate wireframes and mockups into functional web applications.
- Optimized web applications for maximum speed and scalability, achieving a significant reduction in page load times.
- Participated in agile development processes, contributing to sprint planning and retrospectives.

Junior Web Developer

Jan 2016 - May 2017

Creative Agency, Ho Chi Minh City

- Assisted in the development of client websites using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Supported the team in troubleshooting and debugging issues, improving overall application stability.
- Gained experience in version control systems and collaborative development environments.

EDUCATION

B.Sc, Information Technology

2011 - 2015

University of Science, Ho Chi Minh City

- GPA 8.0/10, Good classification. Thesis focused on web application performance optimization.
