PROFILE

Senior .NET Developer with over 6 years of experience in designing, developing, and maintaining applications. Proficient in .NET Core and C#, with a strong focus on backend development and microservices architecture. Passionate about integrating AI tools to enhance application functionality and improve user experience.

WORK EXPERIENCE

Senior .NET Developer

Jan 2020 - Present

ABC Logistics, Ho Chi Minh City

- Designed and developed RESTful APIs using .NET Core and C# to support logistics and inventory management processes.
- Worked extensively with PostgreSQL, writing efficient SQL queries to optimize data retrieval and storage.
- Established and optimized CI/CD pipelines using GitLab CI for automated deployment processes, improving deployment efficiency by 30%.
- Utilized Docker for packaging and deploying applications, ensuring consistent environments across development and production.
- Collaborated with cross-functional teams to analyze requirements and implement new features, enhancing system performance and scalability.

.NET Developer

Jun 2017 - Dec 2019

XYZ Tech Solutions, Ho Chi Minh City

- Developed and maintained microservices for a cloud-based inventory management system using .NET Core and C#.
- Integrated AI models and APIs into existing systems to enhance functionality and user experience.
- Participated in code reviews and ensured adherence to coding standards, improving overall code quality.
- Assisted in the migration of legacy systems to modern architectures, including the use of PostgreSQL for data management.

Junior Developer

Jan 2016 - May 2017

Tech Innovations, Ho Chi Minh City

- Contributed to the development of internal tools using .NET Framework and SQL Server, focusing on backend functionalities.
- Assisted in the design and implementation of RESTful APIs for various applications, ensuring seamless integration with frontend technologies.
- Gained experience in database management and optimization, working with SQL to enhance application performance.

EDUCATION

B.Sc, Computer Science

2011 - 2015

University of Danang - University of Science and Technology

- GPA 8.0/10, Good classification. Thesis on optimizing database queries for large-scale applications.

TECHNICAL SKILLS

- Languages: C#, .NET Core, SQL
- Databases: PostgreSQL, SQL Server
- Tools: Docker, GitLab CI, Jenkins
- Concepts: Microservices architecture, RESTful API design, CI/CD processes

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate
- Docker Certified Associate

ADDITIONAL

- Strong problem-solving skills with a keen attention to detail.
- Experience in logistics and inventory management domains, enhancing understanding of industry-specific challenges.
