PROFILE

Senior .NET Developer with over 6 years of experience in designing, developing, and maintaining APIs using .NET Core and C#. Proficient in SQL and experienced in working with various relational databases. Strong background in microservices architecture and CI/CD processes. Passionate about integrating AI tools to enhance application functionality and improve user experience.

WORK EXPERIENCE

Senior .NET Developer

Jan 2021 - Present

ABC Logistics, Ho Chi Minh City

- Designed and developed microservices for logistics management using .NET Core and C#, ensuring high performance and scalability.
- Implemented CI/CD pipelines using GitLab CI for automated deployment processes, significantly reducing deployment time.
- Utilized Docker for packaging and deploying applications, enhancing the consistency of development and production environments.
- Collaborated with cross-functional teams to analyze requirements and design solutions, integrating AI tools like Chat GPT and Dalle to improve system capabilities.
- Conducted code reviews and ensured adherence to coding standards, improving overall code quality and maintainability.

.NET Developer

Mar 2018 - Dec 2020

XYZ Tech Solutions, Ho Chi Minh City

- Developed RESTful APIs for various applications, focusing on performance optimization and security.
- Worked with SQL Server to design and optimize database queries, improving application response times.
- Participated in the migration of legacy systems to microservices architecture, enhancing system reliability and scalability.
- Assisted in frontend development tasks using HTML, CSS, and JavaScript when required, contributing to a seamless user experience.

Junior Developer

Jun 2016 - Feb 2018

Tech Innovations, Ho Chi Minh City

- Assisted in the development of internal tools using C# and .NET Framework, focusing on improving team productivity.
- Gained experience in SQL database management and query optimization, contributing to various projects.
- Collaborated with senior developers to learn best practices in software development and project management.

EDUCATION

B.Sc, Computer Science

2012 - 2016

University of Danang - University of Science and Technology

- GPA 8.0/10, Good classification. Thesis on optimizing API performance in microservices architecture.

TECHNICAL SKILLS

- Languages: C#, SQL, JavaScript, HTML, CSS
- Frameworks: .NET Core, ASP.NET
- Databases: SQL Server, MySQL
- Tools: Docker, GitLab CI, Jenkins
- Concepts: Microservices Architecture, RESTful API Design, CI/CD Processes

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate
- Docker Certified Associate

ADDITIONAL

- Strong problem-solving skills and ability to work independently or as part of a team.
- Keen interest in emerging technologies, particularly in AI and software development.
