PROFILE

DevOps Engineer with over three years of experience in managing and optimizing ERP systems, particularly Odoo. Proficient in Python and FastAPI, with a strong background in PostgreSQL database management. Passionate about automating processes and ensuring high availability of systems.

WORK EXPERIENCE

DevOps Engineer

Jan 2021 - Present

Tech Solutions Co., Ho Chi Minh City

- Implemented and managed ERP Odoo systems, ensuring smooth operation and configuration for various clients.
- Developed and maintained FastAPI applications to enhance the functionality of Odoo, improving user experience and system performance.
- Managed PostgreSQL databases, optimizing queries and performance tuning to handle large datasets efficiently.
- Established CDC processes between Odoo databases and data warehouses, collaborating with the Data Engineering team to automate data pipelines.
- Deployed CI/CD pipelines using GitLab CI, enhancing the deployment process and reducing downtime.
- Operated Kubernetes clusters, ensuring high availability and reliability of applications, including PostgreSQL clusters with Patroni.
- Conducted regular backups and restores using pgBackRest and pg_dump, ensuring data safety and availability.

Junior DevOps Engineer

Jun 2019 - Dec 2020

Innovative Tech, Ho Chi Minh City

- Assisted in the deployment and management of cloud-based applications, focusing on performance and reliability.
- Collaborated with development teams to implement CI/CD practices, improving the software release cycle.
- Gained experience in managing Linux servers and Docker containers for application deployment.
- Supported the operation of data warehouse systems, including ClickHouse and Superset, enhancing data visualization and reporting capabilities.

EDUCATION

B.Sc, Information Technology

2017 - 2021

University of Danang - University of Science and Technology

- GPA 8.0/10, Good classification. Thesis focused on optimizing database performance in ERP systems.

TECHNICAL SKILLS

- Languages:** Python, FastAPI
- Databases:** PostgreSQL
- DevOps Tools:** CI/CD, GitLab CI, Kubernetes
- Operating Systems:** Linux
- Containerization:** Docker (conceptual understanding)

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA) | 2022
- PostgreSQL Database Administration | 2021

ADDITIONAL

- Strong problem-solving skills and ability to work collaboratively in a team environment.
- Excellent communication skills in both English and Vietnamese.
