PROFILE

Embedded software engineer with over four years of experience in developing and maintaining embedded systems and Android device drivers. Proficient in analyzing and debugging system issues using various Android and Linux logs. Passionate about automation and continuous improvement in development and testing processes.

WORK EXPERIENCE

Embedded Software Engineer

Jan 2021 - Present

ABC Technologies, Ho Chi Minh City

- Developed and maintained embedded software for Android devices, focusing on driver development and system optimization.
- Analyzed and debugged system issues using logcat and kernel logs, improving system stability and performance.
- Wrote and executed automation scripts using Shell and Python to streamline testing processes and reduce manual effort.
- Collaborated with R&D teams to support debugging, stress testing, and performance verification of new features.
- Contributed to continuous improvement initiatives in development and testing workflows, enhancing overall efficiency.

Junior Embedded Developer

Jun 2019 - Dec 2020

XYZ Solutions, Ho Chi Minh City

- Assisted in the development of embedded applications for consumer electronics, focusing on real-time operating systems.
- Conducted production line testing and initial issue analysis, ensuring high-quality product delivery.
- Gained hands-on experience with Linux systems and common commands, enhancing troubleshooting skills.
- Participated in team meetings to discuss project progress and share insights on system performance.

EDUCATION

B.Sc, Computer Engineering

2015 - 2019

University of Danang - University of Science and Technology

- GPA 8.0/10, Good classification. Thesis focused on embedded system design and optimization.

TECHNICAL SKILLS

- Programming Languages: C/C++, Python
- Operating Systems: Linux, Real-Time Operating Systems (RTOS)
- Embedded System Architecture
- Device Driver Development
- Automation Scripting: Shell, Python

CERTIFICATIONS

- Certified Embedded Systems Engineer | Embedded Systems Institute | 2020
- Linux Professional Institute Certification (LPIC-1) | Linux Professional Institute | 2021
